

Lesson Plan: Funky Pen & Pencil Holders

Crafts are not only great fun, they make pretty, sentimental decorations for around the house or classroom and they help develop your little one's motor skills, creativity, and coordination. This craft will teach your kids how easy (and pretty!) reusing trash can be.

What You Need:

- Tin cans
- Colored duct tape
- Glitter and markers

How To Make A Funky Pen and Pencil Holder:

1. Choose your color scheme for your funky pen and pencil holder.
2. Using scissors, cut out strips of colored duct tape. Once you have cut out your desired shapes, tape on to tin can.
3. Using markers and glitter, customize the exterior of your pen and pencil holder by coloring on the duct tape. Using scissors, cut out designs from the duct tape.

Variations:

- This craft can really be made from any household craft items. Mix it up by using sequins, buttons, etc.
- Adhere to pieces of duct tape together and to the bottom and sides of the can to create a divide.
